### **TO WHOM IT MAY CONCERN**

### **FINE ARCHITECTURE LIMITED**

Our Company has worked with Timothy Crum on two projects to date and we have been very pleased with his overall performance. The quality of the architectural plans has been excellent and he has delivered plans and samples with impressive speed and punctuality.

He is attentive and tends to chase the client rather than the usual opposite way. He is reasonable concerning costs and has maintained a very good relationship with all project participants. In particular, his contract administration on the completed mews refurbishment was very clear, very thorough and very regular.

I would have no hesitation in recommending him for projects ranging between £250,000-£500,000.

John D. Chandris
